## our story

Bio-Therapeutic was founded in Seattle in 1974. Our passion is creating products and equipment that combine technology and traditional skin care into technology accelerated skin care. Over 40 years, 30 patents, dozens of awards, and thousands of happy faces later, we are still going and growing strong. We are represented in over 30 countries and we are an official global supplier of Advanced Skin Care Technology for the International Dermal Institute and Dermalogica.

Our professional equipment line up is used by thousands of Estheticians and Skin Therapists around the world and includes wet/dry microdermabrasion, microcurrent, LED equipment, micronized product application, and skin analysis. For consumers we offer the bt-sonic® microsonic cleansing brush which was recently awarded Best Electronic Brush by Dermascope, and the bt-micro® ultrasonic exfoliation tool won Best Product 2017 from LNE as well as the 2017 Grand Prix De Soin Hydratant Visage Award from Les Nouvelles Esthetique Hong Kong and Hong Kong Beauty Magazine.

bt-ceuticals®, our line of professional quality skin care products, are formulated to be used with professional technology, alone in traditional professional skin care services, and is an ideal line for home use. bt-ceuticals products are paraben free, free of artificial color, and water based. All of our formulations contain the latest in forward thinking ingredients to support resulting efficacy. Bio-Therapeutic does not test on animals, and just as important, we do not source ingredients that are tested on animals. We are recognized by PETA as a part of the Beauty without Bunnies Program.

Our Seattle headquarters is home to our sales, marketing, design, manufacturing, and engineering teams as well as our flagship spa, the Bio-Therapeutic Skin Spa. After 40+ years we are still family owned and operated and we are more passionate than ever about delivering professional quality skin care products and equipment to everyone, and we invite you to visit us online, or even better, swing by and stay a while.

David and Dena Suzuki

## OUR MISSION

Bio-Therapeutic is dedicated to creating innovative and effective skin care products and equipment of the highest quality for professional skin therapists and home care use.

# The Value of Partnership

A Partner: common interests, mutual goals, shared responsibility, togetherness

When it comes to making choices in life investments, it is crucial to find a loyal partner who will be there for you when you need them. When you choose Bio-Therapeutic as your partner, you are not simply buying product or equipment, rather you are beginning a partnership that includes an entire team of specialists working with you in achieving your life goals.

Whether you are investing in one technology, our product line, or our entire brand, Bio-Therapeutic has simplified the process by ensuring that each choice is kept simple. Our products are efficacious and hybrid for professional use and retail, and there are no minimum buy-ins. Our equipment is safety tested, certified, ships complimentary, and includes full educational support with our superior on line education platform.

Use your instincts, trust your heart, and keep it simple. With Bio-Therapeutic there are only great choices!

# TOOLS FOR SUCCESS

We are committed to supporting you beyond your purchase. We have a robust system of education, marketing, and personal support tools to help you get the most from your Bio-Therapeutic products and equipment.

# education

At the core of all successful skin care practices is a well educated staff. Education is of the upmost importance to us, and we firmly believe in core curriculum and on going education. When you purchase from Bio-Therapeutic we immediately begin you on your journey to mastery through online education curriculum and certification.

Our in house Educators remain available for ongoing refreshers and questions, as we understand that learning evolves. We believe that when you maintain comprehensive knowledge and skill of your BT products and technology, you will be able to provide your clients with the best possible experience and assist them in reaching their optimum skin health goals.

# online classes, certification

Bio-Therapeutic is dedicated to manufacturing the best skin care products and technology in the world. Our goal is to support you, the skin therapist, with the education and knowledge to generate measurable results and business growth together with BT.

With this in mind we have created the next evolution of online training, [bt-edu.online](http://bt-edu.online). This customized, online learning environment was created specifically for busy skin therapists, with the objective of providing 24/7 access to the classes and materials you will need to complete your certification on Bio-Therapeutic technology. No more shuffling schedules to accommodate your training, simply create your account and enjoy anytime access to classes.

Courses consist of in depth videos on the theory and operation of the technology, short quizzes on the controls and buttons, and assessment tests needed to complete your training. We have included all of the necessary curriculum forms and documentation you will need to complete your course; the days of searching through emails and mailing forms are over.

Once you purchase professional Bio-Therapeutic technology, our education department will be in touch and will provide you with a link to our education platform and a redemption code. Click the link, create your profile, enter your code, and start learning!

## Navigating the Nano

### Using the Increase and Decrease buttons:

Use the Increase (+) and Decrease (-) with **MODE**, **PROGRAM**, and **OPTION** functions

# marketing

Bio-Therapeutic strongly believes that marketing your business and the services you offer goes a long way, and we strive to support you with an array of ready to use content for your Bio-Therapeutic Equipment and Products. From booklets and brochures, website and social media imagery and videos, to Bio-Therapeutic branding, we've got you covered. Bio-Therapeutic is constantly creating and producing new content, be sure to check back with us often.

Sign up for our Emails and follow us on Social Media to stay connected with Bio-Therapeutic news, Tech Tips, How To's and Monthly Specials.

# customer support

Bio-Therapeutic headquarters is based in Seattle, Washington. Here we proudly house our manufacturing and production, quality assurance, marketing and creative team, account managers, and customer service group. Ongoing support and fast, fluid assistance is of the utmost important to us. With a dedicated account manager to answer your questions, make recommendations, and provide insight, you can rest assured we have you covered.

# technology

Advanced handheld tools.

Use in the room or out. Attainable price makes this line the perfect choice for mini and express services in any salon or spa, or as accent services in conjunction with the bt-PRO® line.

### Essential Add Ons.

Accent technology is a new way to think about service options. Designed to complement core and standalone services and technologies, increase client satisfaction, and add value to any service.

### Full size professional technology.

Engineered for standalone services or together for the ultimate layered service. Technology includes microcurrent, LED, and wet/dry microdermabrasion.

# out of the room

## Tools and Technology of Convenience for the Forward Thinking Skin Therapist

As technology becomes smaller and more intelligent in every aspect of our day to day lives, it is no surprise that we are seeing this trend coming forward with skin care tools and technology. Whether it be high tech vision visors that allow the skin therapist to effortlessly observe their client's skin while they work, or the new breed of rechargeable professional battery operated technology that allow the skin therapist the ultimate agility in her environment and budget, there is no doubt that our needs as esthetic professionals are evolving.

### Bringing the Treatment Out of the Room!

A big part of this evolution has been spawned by the strong trend of bringing the service literally out of the room. Although historically we have hidden away our secret tools and technology in the dark corners of our service rooms, the future of skin care could not be more opposite. The forward thinking tools and technology of tomorrow's skin therapist are more than efficacious and effective, they are interesting and fashionable; the bling of skin care! Hand held, compact, cordless technology that can be conveniently carried in a skin therapist's tool belt, or positioned near the service chair in a "room-less" service environment are smart. The appearance of a skin therapist greeting her client wearing her high tech attire in itself is a statement; the image is commanding, definite, and confident.

### Advanced Technology

The new hybrid innovations of skin care tools and technology represent some of the most technologically advanced ideas and concepts in skin care today, and best of all, they complement and respect the power of touch. By no means have they eliminated the need for full size technology, rather they have allowed an entirely new set of tools to further refine our services and results. Shop smart, as not all products are created equal. Use your logic, and look for the science and education that supports the technology. Seek out knowledgeable and credible manufacturers and suppliers who really know their stuff when it comes to technology, and most importantly take the time to educate yourself about it. Although the prices for these new exciting tools are certainly attainable, there is no doubt that you will see significant price variances within the market place. Two things that should never be bargained with; your reputation and your business. Simply put, when you are investing in yourself and your business, settle for nothing less than the BEST.

# advantages of layering technologies

The concept of layering technology is natural, logical, and strategic. It incorporates the philosophy of using multiple synergetic and scientific disciplines together in one service to maximize the results naturally and expeditiously.

Having the ultimate array of technology at your fingertips allows you to create an infinite number of services, each unique to address specific concerns for each client. This uniqueness makes your services one of a kind both by method and result. This ideology is not only proven in regards to the results obtained with your client's skin, but also the growth and success that you can achieve with your business.

What is consistent about the skin is its inconsistency; no two individuals are the same. Each client must have his or her own specific professional recommendations, which in many cases may include as many as five technologies used in harmony. There is commonly a leader in the layering technique; one technology that is deemed as dominant to meet each client's objective. The other technologies are used as accents both before and after the dominant technology to enhance the results.

The layering concept allows for a comprehensive service, as not all skin responds the same to all technology. By utilizing multiple disciplines together, the end result is improved and the amount of time required to achieve this result is reduced. An array of technology is also very useful from a marketing standpoint, as it allows a near endless selection of services that can be strategically placed on your menu. In addition, it provides your business the opportunity to strike interest with a broader client base. Most of today's well-read and savvy consumers usually have a favorite technology that they have recently read or heard about.

Regardless of which way you slice it, owning one layer or multiple layers of Bio-Therapeutic technology is good business. Possessing the intimate knowledge of how to use each technology individually, and in layered form, is equally as important as having the best made technology in the world. Another reason to choose Bio-Therapeutic as your solution for forward thinking skincare, technology, and equipment!

# bt-micro<sup>®</sup>

## ultrasonic exfoliation

The bt-micro is the ultimate in hand held professional technology that offers ultrasonic exfoliation using forward thinking technology. bt-micro ultrasonic exfoliation works by creating high speed oscillations, leaving skin smooth, fresh, and perfectly prepared for product application. The bt-micro is powered by a rechargeable battery, and is compact and lightweight.

### Features

- Compact and agile: 1.8" W x 6.9" L x 0.5" H
  - Cordless, rechargeable battery system
  - Use in every facial
  - Weighs 2.9 oz

[more info](#) →

# bt-sonic®

## microsonic cleansing brush

Powerful and portable, this microsonic cleansing brush is ideal for both home and professional use. Water resistant and engineered for everyday use, its ergonomic shape is comfortable in the hand, while its triangular cleansing head is thorough and gentle on your skin as the antimicrobial and antibacterial Azul silicone bristles cleanse areas that other brushes simply can't reach. The bt-sonic is fun to use, provides a professional quality cleansing in as little as 2 minutes, and leaves your skin feeling smooth and radiant. Dull days are over.

### Features

- IPX6 water resistant: The highest level of water resistance that can be achieved.
  - 45% more water resistant than before
- Light weight and compact for quick and effective cleansing
  - Can be used in any environment including the shower
    - Powered by 2 AAA batteries (included)
    - Compact and agile: 1.5" w x 7.1" h
    - High performance tactile button
    - Weight: 2.8 oz

# bt-nano<sup>®</sup>

## mini microcurrent

The bt-nano is the ultimate mini system, utilizing our exclusive patented Suzuki Sequencing<sup>®</sup> platform. The bt-nano can be easily held in one hand, and economically placed in or out of the service room. It positions perfectly in any environment and setting due to its size, portability, and convenience.

### Features

- Compact, convenient and intelligent
- Utilizes Suzuki Sequencing Technology
- Battery operated and completely mobile
  - Clear silicone protective skin
  - Weighs 12.8 ounces

Bio-Therapeutic  
bt-analyze™ skin identification

# bt-analyze®

## skin identification

Using advanced technology and a sophisticated sensor, the bt-analyze calculates moisture levels on the skin in multiple zones of the face to clearly define the needs of each area. Each reading is saved and displayed on the intelligent LCD screen so that it can be documented at the end of the analysis. This tool gives quick guidance to share with clients and begins the process of allowing them to become an active participant in understanding their skin and need for specific products and services to reach their goals. The bt-analyze should be used before and after each service to capture improvements made and to note modifications needed.

### Features

- Compact at only 3.5 inches in length
- Weighs less than 5oz
- Battery powered, cordless
- Large skin specific membrane sensor
- Precise measurements with delineation to the tenth
- Easy to view LCD display with 7 memory measurement function
- Protective cap
- Easy to sanitize with disinfectant wipes
- Fits perfectly in the bt-techbelt®
- Clear silicone protective skin

## service options

A combination of the bt-micro® and bt-nano® can be used in or out of the service room. The bt-micro can perform the entire service or the bt-nano can be included for advanced skin work. Both technologies will allow for agility and freedom to custom tailor services for each client.

Bio-Therapeutic products are not intended to diagnose or treat any medical condition.

# bt-vision®

see clear, be clear.

The ability to analyze the skin at multiple magnification levels with the perfect light every time is key in determining the perfect skin care products and professional services for your client. The bt-vision is a self lit visor that is battery powered, lightweight, features our perfect white light LED illumination system, and comes with a range of magnification lenses; 1.2X, 1.8X, 2.5X, 3.5X. This handy tool not only looks intelligent, it is intelligent, and replaces the need for your mag lamp. Use it in the service room or out, as well as in the retail area for on the spot skin analysis.

## Features

- Head piece is completely adjustable for optimum comfort for all day wear
  - Multiple magnification lenses 1.2X, 1.8X, 2.5X, 3.5X
  - Will hold two magnification lenses at all times
  - Clear LED Light Illumination System
    - Weighs less than 16 ounces
    - Cordless, battery powered
    - Quick release lens system
    - 5 way adjustable light

more info →

# bt-zoom<sup>®</sup>

## magnify + illuminate

The bt-zoom is a hand held mag lamp that magnifies up to 5x with 8 clear LED lights to enhance skin details, and 4 UV LED lights allowing for rapid observation of your clients' skin.

Utilize this system during consultations or in the retail area for product recommendations.

### Features

- Dimensions: 8" x 3 1/4" x 1 1/2"
- Power Supply: 3 AAA batteries
- Weight: 3.7 oz

# meet Karli

Karli Stewart is the owner of Mode Skin Care & Esthetics and a Bio-Therapeutic Platinum Educator. We recently had a chance to sit down with her and get her perspective on running a skin care business and her experience with Bio-Therapeutic.

## Tell us about yourself.

I am a lifelong Washingtonian. I have many passions in life, a few of which lie in the great outdoors where I enjoy hiking, fishing and exploring the PNW with my partner and puppy. It's important for me to experience physical and mental challenges and to push myself to overcome the fear that can lie in the unknown. I may not know the outcome of a challenge, but I can learn from my experiences and share my successes.

## What do you love most about practicing skincare?

The thing I love about skincare is how I am able to improve a client's skin. One session can be what it takes to change someone's life for the better, and I'm grateful to be able to offer that. As someone who has worked in a touch based profession for 20 years, I've worked with many clients from different backgrounds. When they leave my office, they are much happier than when they came in. I offer some of the most cutting edge, non-invasive options that are available on the market today that not only offer results, but they are relaxing too.

## How has Bio-Therapeutic helped your business?

As a small business owner, being able to add Bio-Therapeutic over a period of time was a huge plus. With no minimum purchases or buy ins, this allowed me to add more products and equipment as my business grew. I started a new esthetics business in 2008 during a financially difficult time for many people. It was slow going for quite a few years, but I made it through and Bio-Therapeutic was a major contributor to my success.

## How do you incorporate this into your menu?

I incorporate BT skin analysis tools, products, and technology into all of my service offerings. In fact, I use LED in nearly all of my skincare sessions. The hands free machine allows me the freedom to offer a shoulder, arm, and hand massage. The client relaxes, and receives a powerful service at the same time. Incorporating technology with relaxation helps set me apart from most other skincare businesses in my area. I have a young client who always breaks out from facial waxing. I have incorporated blue light LED with her waxing sessions and she no longer breaks out. This is a total bonus for this teenage client, and for me!

## What is your favorite BT product?

The bt-Cocktail is hands down my go to product. This system offers brightening, sebum control, firming, hydrating, and antioxidant protection all in a simple 3 step process. And it really is as easy as 1-2-3. It makes sense to novice clients who may not understand the importance of the layering aspect of applying products to the skin. Plus, it is quick to apply, which is always a bonus.

Learn more about Karli at her website: [modeesthetics.com](http://modeesthetics.com)

# bt-ceuticals®

## Technology Accelerated Skin Care

We are pleased to introduce you to the world of bt-ceuticals, a comprehensive and targeted line of strategic products to meet all skin care needs during all traditional and technology based facials, and complete home care products.

bt-ceuticals products are paraben free, cruelty free, and water based. Each works in perfect harmony with technology, and superbly on their own. All of our formulations contain the latest in forward thinking ingredients to support resulting efficacy.

Share your skin care journey  
#mybiotherapeutic

# BASICS

Cleanse, Cleanse Hydrating, Tone, Exfoliate, Cream, Serum, Shade

Strategic cleansers, toners, exfoliators, creams, serums, and sunscreen that can support and serve as a foundation for all services and skin care regimens.

## CLEANSE

8 OZ / 16 OZ

All skin types

A gentle and refreshing water based cleansing gel formulated with a blend of citrus extracts to remove surface impurities and oil. Invigorates and revitalizes tired skin with grapefruit, and rosemary extract, while azulene from chamomile extract soothes and calms skin.

[more info →](#)

## EXFOLIATE

8 OZ

All skin types

The combination of papaya enzymes and jojoba beads makes this the ideal exfoliating scrub. The formulation leaves skin feeling refined, smooth, and refreshed. Sodium PCA provides moisture retention; and allantoin soothes and heals even the most sensitive reactive skin. This mild preparation is gentle enough for daily use.

[more info →](#)

## CLEANSE HYDRATING

8 OZ

Mature, dry, dehydrated, or sensitive skin

A gentle and soothing cream cleanser formulated with a blend of calming emollients to thoroughly cleanse while hydrating skin. Excellent as an eye makeup remover.

- Emollient, soothing, and creamy cleanser that gently collects makeup and debris
- Contains squalane to help moisturize
- Great for sensitive, dry, or reactive skin

[more info →](#)

## TONE

8 OZ / 16 OZ

All skin types

A gentle, hydrating toner formulated with mild citric acids to balance and calm the skin after cleaning and exfoliating.

- Excellent for its astringent properties with orange oil
- Refreshes, moisturizes, and softens skin

[more info →](#)

## SERUM

1 OZ

All skin types

This exclusive formula contains Biodynes TRF (Tissue Respiratory Factor) to support skin health and encourage collagen and elastin, while fennel fruit extract reduces inflammation and serves as a powerful antioxidant to fight free radicals. Hyaluronic acid provides a light hydration for the skin.

[more info →](#)

## CREAM

1 OZ / 4 OZ

Normal, dry, and sensitive skin

Rich in collagen and elastin, this powerful liposome based cream moisturizes, firms, and provides antioxidant benefits. It contains GLA (gamma linoleic acid) which is a lipid replacement ingredient, and vitamin E as an antioxidant. This product can be used both day and night and applied over a serum.

[more info →](#)

## SHADE

2 OZ / 6 OZ

All skin types

This full spectrum SPF 30 UVA/UVB sunscreen provides necessary protection from environmental hazards, and sodium hyaluronate for maximum hydration. This non-oily, soothing, and refreshing preparation makes it ideal for daily use and is an excellent makeup base.

[more info →](#)

## PAPAYA

The papain enzyme is one of the best fruit enzymes to incorporate into your skin care regimen. It has properties to brighten, exfoliate, and invigorate. Papain is a proteolytic enzyme that has the unique ability to safely digest dead skin without damaging or irritating healthy underlying tissue or sensitive skin. It is also a rich source of vitamin C, A, E, pantothenic acid, folate, magnesium and potassium.

Found in:  
bt-Cocktail® Energy 1, 2, and 3  
Exfoliate

# BT-COCKTAIL<sup>®</sup>

Energy 1, Energy 2, Energy 3

The bt-Cocktail 3 part energy system (Serum, Gel, and Cream) is a fantastic finishing product for all traditional and technology based services, and is an essential home care product.

## BT-COCKTAIL<sup>®</sup> ENERGY 1: SERUM

1 OZ / 2 OZ

All Skin Types

Eases dark spots created by stress, UV exposure, pollution, and blemishes, and relieves sensitive and irritated skin. Part one of the bt-Cocktail system contains Hydractin<sup>®</sup>, a powerhouse support ingredient. It also contains papaya extract, which gently exfoliates the skin, algin (derived from sea algae), which optimizes water balance, and Licochalcone to brighten dark spots. Thiotaine defends against free radical damage, and serves as a protectant.

[more info →](#)

## BT-COCKTAIL<sup>®</sup> ENERGY 2: GEL

1 OZ / 2 OZ

All Skin Types

Energy 2 contains AC Dermal Peptide Micro C, which has been shown to support collagen, and is an anti-irritant. Riboxyl promotes smoother appearing skin, and Tego<sup>®</sup> Cosmo C 100 provides protection from environmental stress.

[more info →](#)

## BT-COCKTAIL<sup>®</sup> ENERGY 3: CREAM

1 OZ / 2 OZ

All Skin Types

Energy 3 contains SYN<sup>®</sup> COLL, a small peptide that supports collagen. Marrubium Stems GX is an antioxidant and enhances skins capacity to resist oxidative stress. Energy 3 also contains SYN<sup>®</sup>-TACKS, which supports barrier function.

[more info →](#)

## BT-COCKTAIL<sup>®</sup> SET

(3) 1 OZ Bottles

All Skin Types

The bt-Cocktail<sup>®</sup> product system is a unique proprietary blend of the most forward thinking, efficacious ingredients available today in skin care. Together these ingredients allow for optimal skin health by nourishing, protecting, and supporting.

Independent studies on individual bt-Cocktail ingredients have been reported to show encouragement of younger and healthier looking skin, refine pores, and diminish the appearance of fine lines and wrinkles.

[more info →](#)

## ADENOSINE TRIPHOSPHATE

### What is ATP?

ATP, or Adenosine Triphosphate, is the energy source that supports all living things. As we age our bodies gradually lose their stores of ATP, and our functions slow. Since the body cannot survive without ATP, one would think that it would build up and store an ample supply so that the body could function at optimum levels all the time. However, the body does not “store” ATP, rather it manufactures it on an as needed basis via ATP Synthesis (ATP Synthase).

To a certain degree, you can think of this a bit like our process of obtaining and storing food and liquids. Although we need food and liquids to survive, we are not packing around 100 pound bags of food and liquids in preparation for our long term needs, as our body can only utilize so much at a time. We do, however, require an environment that supports and allows a ready supply.

### ATP and Aging

Although many factors are associated with the aging process, ATP, or the lack thereof, is at the top of the pyramid as defined when discovered by Karl Lohman in 1929 and supported by Fritz Lipman in 1941 citing ATP as the primary energy transfer molecule of the human body. Without power, or ATP, the human body will not function effectively.

Preventative maintenance and improved health begins with creating environments that support and maximize the synthesis of ATP. This includes the foods that we eat, the professional skin care technology that we use, and the topical products that we apply to our skin.

bt-Cocktail® is the perfect energy boost to improve the appearance of the skin. The three part skin energy system combines the most forward thinking ingredients available to create the ultimate environment to diminish the appearance of fine lines, improve hydration, and reveal glowing healthy looking skin.

# PLATINUM

Platinum Peptide Serum®, Platinum Relaxing Serum®,  
Platinum Peptide Cream®, Platinum Brightening Cream®,  
Platinum Restore Eye Cream®

Platinum products can dramatically improve the  
appearance of the skin, and may be used in any  
traditional or technology facial.

## PLATINUM PEPTIDE SERUM®

1 OZ

All skin types

Formulated with the latest in peptide technology including palmitoyl tripeptide-28, palmitoyl tripeptide-1, palmitoyl tetrapeptide-7 for support, repair, and anti-inflammatory benefits. Contains cassia alata leaf extract as an anti-oxidant, and sodium hyaluronate for hydration.

[more info →](#)

## PLATINUM RELAXING SERUM®

1 OZ

All skin types

A powerful serum concentrate with Acetyl Octapeptide-3 and Hyaluronic Acid to hydrate and firm. This serum contains Acetyl Octapeptide-3 (aka SNAP-8) placing it amongst the most effective topical products to address the appearance of expression aging.

[more info →](#)

## PLATINUM BRIGHTENING CREAM®

1 OZ

Dry, Sun damaged skin

Platinum Brightening Cream is an effective product for use on dark areas and for dry, dehydrated skin. Vitamins C and Vitamin E offer antioxidant benefits, and sodium hyaluronate acts as a humectant to reduce water loss and support barrier functions.

## LICORICE ROOT EXTRACT

Licorice is (*Glycyrrhiza glabra*), is a legume related to beans and peas that is native to southern Europe and parts of Asia. The plant extract has skin soothing properties and is a potent antioxidant. Glabridin is a chemical compound found in licorice root extract that contains flavonoids that act to depigment, lighten, and brighten the skin. Licorice extract is a great natural substitute for hydroquinone, which causes adverse reactions in some users.

# ACCELERATE LINE

Chromatic Serum®, Accelerate Clearing®, Accelerate Repairing®, Accelerate Brightening®

Targeted active serums for use during all traditional and technology facials to address a multitude of skin care objectives.

## ACCELERATE BRIGHTENING®

1 OZ

All skin types

This exclusive formula contains Biodynes TRF to support skin health, and hyaluronic acid to provide a light hydration for the skin.

- Contains niacinamide, and palmaria palmata extract for lightening
- Excellent for use in all professional services to brighten, hydrate, and soften
- Improves barrier functions, contains ergothioneine as a powerful antioxidant

[more info →](#)

## ACCELERATE CLEARING®

1 OZ

Oily, blemished skin, any skin type with blemishes

ACCELERATE clearing contains green algae extract (chlorella vulgaris extract) to calm. Salicylic acid serves as a keratolytic that exfoliates and decongests. Niacinamide, Vitamin B derivative of niacin, aids in skin smoothing.

- Contains betaine salicylate which is gentle yet powerful on blemishes for home use
- Ascorbyl glucoside, a time released version of Vitamin-C for lightening and brightening
- Decongest and normalize moisture with anti-inflammatory and peptide ingredients

[more info →](#)

## ACCELERATE REPAIRING®

1 OZ

Mature, dry, dehydrated skin.  
(not for use on oily, blemished skin)

ACCELERATE repairing is excellent as a lipid replacement product and as an emollient and sealant to be applied after all hydrators or moisturizers. Formulated with Passiflora edulis seed oil (passion flower) and Vitamins A and E as antioxidants. It also contains ceramides (lipids which form a protective barrier) and sphingolipids (fatty acids) that provide a restorative effect on damaged skin.

- Passiflora edulis seed oil (passion flower): rich in Vitamin A, supports barrier function, an emollient, protector, and antioxidant
- Sphingolipids: emollients which provide restorative effect on compromised skin barrier
- Vitamin E (tocopherol acetate): antioxidant and preservative
- Vitamin A (retinyl palmitate): smoothes
- Excellent for environmentally damaged skin, and offers antioxidant support and lipid replacement

[more info →](#)

## CHROMATIC SERUM®

2 OZ

All skin types

Formulated with green tea, antioxidants and lavender to soothe and calm

- Contains Acetyl Dipeptide-1 Cetyl Ester to hydrate and calm
- Soothes inflammation

## LED services

Together with the Accelerate product system, target specific goals utilizing different colors of LED for smoother, softer skin.

# SPECIALTY PRODUCTS

Restyfluid®, Decongest®, Collagen & Elastin Ampoules, Polarized Water, Hydrate

Products created specifically with professional services in mind, this is a one stop shop for affordable high end quality.

## DECONGEST®

4 OZ

All skin types

This gentle and effective formulation assists with extractions. Cetrimonium bromide acts as a surfactant to soften sebum while geranium, corn mint, palmarosa, and orange extracts help reduce irritation.

- Contains cetrimonium bromide, a surfactant which breaks up oils and fats on the skin.
- Contains corn mint (mentha arvensis leaf oil) an antiseptic with anti-inflammatory properties
- Contains orange peel extract (citrus aurantium dulcis), an anti-bacterial and anti-inflammatory.
- Antibacterial and anti-inflammatory formulation reduces irritation and softens sebum

[more info →](#)

## RESTYFLUID®

4 OZ

All skin types

This refreshing preparation firms and moisturizes with antioxidants and peptides. Contains hyaluronic acid, palmitoyl tripeptide-1, palmitoyl tetrapeptide-7, and Vitamins C and E. Provides light hydration and firming for all skin types.

- Contains Aloe to help soothe
- Sodium Hyaluronate for intense hydration

[more info →](#)

## COLLAGEN & ELASTIN AMPOULES

10 pack of 2ml ampoules

All skin types. Excellent for increasing hydration levels in both dry and oily/blemished prone skin.

A unique formulation that combines collagen and elastin to regenerate, rehydrate, and revitalize the skin.

- Contains collagen and elastin to hydrate and firm the skin
- Superb for home use as it compliments all other bt-ceuticals products
- Excellent support to both blemished and dry skin

[more info →](#)

## HYDRATE

16 OZ

All skin types

This hydrating gel contains Sodium Hyaluronate and Niacinamide, offering benefits of drawing moisture to the skin, improving barriers, and reducing moisture loss.

- Excellent for hydration and soothing
- Contains Sodium Hyaluronate for hydration
- Laminaria Ochroleuca (seaweed) helps to reduce inflammation

[more info →](#)

## POLARIZED WATER

16 OZ

All skin types

A precise blend of electrolytes and minerals formulated to reduce surface tension and provide optimal hydration during professional applications.

[more info →](#)

# WET / DRY MICRODERMABRASION

AQUAFUSE® FoamPeel, AQUAFUSE® Clearing, AQUAFUSE® Hydrate, AQUAFUSE® Brightening

Targeted toners for use during layered wet/dry microdermabrasion services and traditional facials to exfoliate, clear, brighten, and hydrate the skin.

## AQUAFUSE® FOAMPEEL

7 OZ

All skin types

This rich, foaming product is formulated with AHA and BHA for exfoliation.

- AHA/BHA peel contains betaine salicylate and glycolic acid with a higher pH, which is easy to tolerate for even the most sensitive clients.
- It acts as a gentle keratolytic and dissolves excessive sebum and debris in congested areas, while providing hydrators to maintain a healthy balance and proper barrier functioning.
- AQUAFUSE foamPeel is efficacious, easy to use, and quickly absorbed in a matter of minutes. Paraben and sulfate free.

[more info →](#)

## AQUAFUSE® HYDRATE

16 OZ

All skin types

AQUAFUSE hydrate contains a combination of peptides such as palmitoyl tripeptide-1 and palmitoyl tetrapeptide-7 for calming. Use for home care as additional support for a light hydration and skin softening.

- Great for dry, dehydrated, or mature skin
- May be used to replace a toner
- Formulated with a combination of peptides for hydration

[more info →](#)

# smooth, glowing skin

Perfect for all skin types, Wet/Dry Microdermabrasion combines crystal free microdermabrasion, vacuum technology, and strategic product infusion to provide a gentle and effective exfoliation that leaves skin visibly soft, radiant, and glowing!

1st Pass  
Exfoliate

2nd Pass  
Target

3rd Pass  
Buff

## AQUAFUSE® BRIGHTENING

16 OZ

All skin types with hyperpigmentation

AQUAFUSE brightening solution contains a combination of lightening ingredients such as ascorbyl glucoside, and niacinamide. Use for home care as additional support for reducing darker pigmented areas.

- Excellent home care product to brighten
- Contains ascorbyl glucoside, a time released Vitamin C product
- Niacinamide for skin smoothing and barrier improvements

[more info →](#)

## AQUAFUSE® CLEARING

16 OZ

Oily, blemished skin

AQUAFUSE clearing contains salicylic acid to act as a keratolytic for reducing oil and blemishes. Use for home care as additional support for targeted blemish and oil reduction.
