

BIO-THERAPEUTIC

INTERNATIONAL

Advanced hand held tools

Use in the room or out. Attainable price makes this line the perfect choice for mini services in any salon or spa, or as accent services in conjunction with the bt-PRO® line.

bt-zoom®

The bt-zoom magnifies up to 5x, has 8 clear LED lights to enhance skin details, and 4 UV LED lights allowing for rapid observation of clients' skin. Utilize this system during consultations or in the retail area for product recommendations.

bt-analyze®

Using advanced technology, the bt-analyze calculates moisture levels on the skin. Use in multiple zones of the face to clearly define the needs of each area. Each reading is saved and displayed on the intelligent LCD screen to be documented at the end of the analysis.

bt-micro®

The bt-micro is the latest generation in hand held professional technology that achieves ultrasonic exfoliation using forward thinking patented technology. bt-micro ultrasonic exfoliation works by creating high speed oscillations, leaving skin smooth, fresh, and perfectly prepared for product application. The bt-micro is powered by a rechargeable battery, compact, lightweight, and extremely effective as a stand alone tool or used in conjunction with other technology services.

bt-nano®

The bt-nano is the ultimate mini system, utilizing our exclusive patented Suzuki Sequencing® platform. The bt-nano can be easily held in one hand, and economically placed in or out of the treatment room. It positions perfectly in any environment and setting due to its size, portability, and convenience.

bt-vision®

Having the ability to analyze the skin at multiple magnification levels with the perfect light every time, is key in determining the perfect skin care products and professional services for your client. The bt-vision is a self lit vision visor that is battery powered, lightweight, features our perfect white light LED illumination system, and comes with range of magnification lenses; 1.2X, 1.8X, 2.5X, 3.5X. This handy device not only looks intelligent, it is intelligent, and replaces the need for your mag lamp. Additionally, it can be used in the treatment room or out, as well as in the retail area for on the spot skin analysis.
